Avail-TVN Secures Long-term Industry-wide Deal for Knightscope's Family-Oriented Programming and Oasis TV's Body-Mind-Spirit Content

**Sherman Oaks, CA, January 12, 2010** - Avail-TVN, the largest independent digital media services company in North America, continues to complement its extensive offering of studio and network VOD content with targeted programming that helps service providers deliver value to their subscribers. The company today announced long-term, industry-wide deals to deliver VOD content from Oasis TV and Knightscope Media Corp. (TSXV: KC / OTCQX: KCMDF). The agreements with Avail-TVN will ensure the delivery of VOD content from Oasis TV and Knightscope to more than 48 million households across North America.

Oasis TV provides Body-Mind-Spirit programming in the personal growth, spirituality, metaphysics, natural health, current affairs, earth and science, and love and relationship categories.

"We are excited to enter into these new agreements with both Oasis TV and Knightscope that provide just the type of content our affiliates and their customers are looking for."

Avail-TVN offers over 8,000 hours of VOD content at any one time with over 3,000 hours of new content added every month. The company works with more than 200 content providers, including every major Hollywood studio, broadcast, cable and premium network, as well as exclusive On Demand-only networks, offering niche, specialty and longtail content.
